**Subject:** Serious Human Rights Violations at Terre Haute FCI.

JUN 14 2016

CITY CLERK

I call upon you for assistance in eliminating the human rights violations taking place routinely at Terre Haute FCI. I asked Wardens Julian and Daniels to corral their corrections officers and hold them accountable for the constitutional violations and human and civil rights violations perpetrated by their corrections officers, specifically Corrections Officers Eddy, L. Smith, and L. Stevens, but they refuse to bring them under control. Allow me to detail two of the more common and problematic examples.

Terre Haute FCI has prevented my brother, Gabriel Mangum #102985029, health care for more than a year. He must be examined by a doctor on a periodic basis to combat the life-threatening disease called Sarcoidosis. It is not within the power of the corrections officers to cancel a doctor appointment for an inmate.

Also, please help pressure Wardens Julian and Daniels to stop their corrections officers from torturing the inmates and violating their constitutional rights. Every night, the corrections officers play loud music, bang on cells, and wake up the inmates so they are not getting enough sleep.

Another appalling incident happened late night on Wednesday, May 25. Corrections Officers Eddy, Smith, and Stevens came around to shake down the whole unit. These corrections officers made my brother strip naked and spread his butt cheeks all while his cell mate was in the cell, but did not search the cell mate or anyone else in like manner. Then these corrections officers made every inmate stand out on the tier in their underwear and some naked, dehumanizing them and causing a lot of humiliation.

Please, call Wardens Julian and Daniels and please investigate this institution to ensure that it operates properly and constitutionally. Help make sure my brother, Gabriel Mangum #102985029, is examined by a qualified, board certified doctor as soon as possible, for he has not been examined by one since arriving at Terre Haute FCI. Also, help keep the corrections officers from torturing the inmates.

Sincerely,

Maruice Mangum
